

# Collaboration with the Centre for Continuous Manufacturing and Crystallisation (CMAC)

Technology, Business, Research and Networking Event

## Event Guide:

This event will be a platform for CMAC industrial partners, collaborators and academia to present, discuss and network. Presentations will feature current hot topics, technology developments, collaborative opportunities and a CMAC Director's update. Industrial and academic presentations will highlight:

- Recent business and technology developments.
- Collaborative opportunities.
- Successful technology platforms and projects.

This will be followed by a networking lunch and the opportunity to observe a demonstration of the ICT CMAC Project: 'Hyperspectral Imaging – Monitoring Batch to Continuous Production of Pharmaceuticals and Fine Chemicals'. Secure your place when you register for this event.

## Venue & Registration:

Wednesday 4th May 2016  
Registration and refreshments from 8.30am  
Event 9.00am - 12.30pm, followed by networking lunch and optional tour.

The Technology and Innovation Centre  
99 George Street  
Glasgow G1 1RD ([map](#))

To register please go to  
[www.engage.strath.ac.uk/event/296/](http://www.engage.strath.ac.uk/event/296/)

## Audience:

Industrial and academic partners and collaborators of CMAC, and those involved in high-value manufacturing and research and development of continuous processing, including:

- Continuous processing.
- Process analytical technology.
- Modelling.
- Formulation.
- Predictive control.
- Particle isolation and optimisation.

Benefits of attending:

- Find out about recent developments and applications in continuous technology in industry and academia.
- Engage with industrial and academic contacts from multiple companies and institutions and explore the potential for future collaborations.
- Understand more about CMAC and its partners' capabilities.
