

Hunting for Answers

Exhibition opening night

Event Guide:

Engage with Strathclyde presents an eclectic art exhibition by ten artists using a variety of media to express their understanding of the research conducted at the Strathclyde Institute of Pharmacy and Biomedical Sciences (SIPBS), with a particular emphasis on Huntington's disease.

This event is the opening night of the exhibition, a culmination of a micro-residency undertaken by the artists, coordinated by [ASCUS Art Science Collaborative](#) in collaboration with the [Chamberlain lab](#) (SIPBS).

Register for this event to hear more about the collaboration, meet the artists and researchers involved and learn more about the research taking place at the University.

Venue & Registration:

Tuesday 29 April
7.00pm - 8.30pm
Strathclyde Institute of Pharmacy & Biomedical Sciences, Hamnett Wing, University of Strathclyde, Glasgow ([map](#)).

To register please go to
www.engage.strath.ac.uk/event/140/

Audience:

Everyone is welcome to attend this exhibition.

Benefits of attending:

- An opportunity to engage with ten artists all of whom have explored the fundamental questions that scientific research faces, and who are presenting their understanding in this unique exhibition.
- Find out more about the research carried out in SIPBS interpreted through various artistic media.
- See and hear scientific findings in a new and engaging way.
