

Civil and Environmental Engineering

Showcasing Projects with Industry

Event Guide:

It is beneficial for industry and students to collaborate in industrially-relevant projects. This poster presentation and networking event will showcase some of the collaborative projects led by the Department of Civil and Environmental Engineering.

Approximately 40 projects will be on show including SME carbon audits, treatment of land contamination, environmental management, Green Network Strategy and hydrogeology projects overseas. Posters relate to the work of nine different programmes: LLM Construction Law; MSc Environmental Engineering; MSc Environmental Entrepreneurship; MSc Global Energy Management; MSc Global Sustainable Cities; MSc Hydrogeology; MSc Sustainability and Environmental Studies; and University PhD programmes. Attendees will vote for the best poster.

Venue & Registration:

Tuesday 3rd May 2016
10.00 am – 12.00 pm
Scottish Universities Insight Institute
The Collins Building
22 Richmond Street
Glasgow G1 1XQ ([map](#))

To register please go to:
www.engage.strath.ac.uk/event/263/

Audience:

- Companies currently working with students in client-based projects.
- Companies interested in working with the University of Strathclyde.
- Staff who already contribute to the programmes.
- New staff who are interested in contributing to the programme in future.
- Past, present and potential students (including distance learning).

Benefits of attending:

- Learn what collaborative work the University can offer your company.
- Discuss carbon audits, treatment of land contamination, wildlife management and hydrogeology projects.
- Discuss topics for future projects
- Learn how to get the most from industry-based projects.
- Engage with industrial contacts.
- Share best practice with project supervisors.
- Headhunt top students to work in your company.
